

November 30, 2020

The Honorable
United States House
Washington, D.C. 20515

Dear Rep,

On behalf of the hardworking American farmers we represent, we are writing in support of S. 4054, the Grain Standards Reauthorization Act of 2020. S. 4054 was unanimously approved by the Senate on November 16th via voice vote and would reauthorize the Grain Standards Act (USGSA), which sets the framework for the functioning of the U.S. Department of Agriculture's Federal Grain Inspection Service. With the impending expiration of parts of the USGSA on December 11th, it is critically important that Congress finalize the reauthorization process. We believe the bill will maintain confidence in our inspection system, which is a key element of our success in export markets.

The United States' grain inspection system provides certainty to our foreign customers that all U.S. grains and oilseeds have been inspected and certified by an independent agency and provides great value to U.S. commodities, thereby enhancing our competitiveness in the world market. This certainty and reliability have helped grow export markets for U.S. commodities and serves as a significant advantage for U.S. products versus commodities from other origins.

A properly functioning grain inspection system is critical, and we urge Congress to reauthorize the Grain Standards Act this year. Despite the significant impacts of tariffs on exports, U.S. commodities have maintained some competitiveness in the international market in part thanks to the premium international buyers place on the U.S. grain inspection system. Given the current uncertainty in trade agreements and many of the bearish factors working against U.S. farmers, it is critical we maintain one of our key advantages. Our customers, foreign and domestic, see tremendous value in the U.S. grain inspection system, and reauthorization of the Grain Standards Act will ensure this value continues for U.S. grain exports.

To avoid uncertainty and potential disruption of the U.S. Grain Inspection and Weighing system, we urge enactment of S. 4054, the U.S. Grain Standards Reauthorization Act of 2020, before December 11, 2020.

Sincerely,
