

March 6, 2025

Senate Majority Leader John Thune
S-230, The Capitol
Washington, DC 20510

House Speaker Mike Johnson
H-232, The Capitol
Washington, DC 20515

Senate Minority Leader Chuck Schumer
S-221, The Capitol
Washington, DC 20510

House Minority Leader Hakeem Jefferies
H-204, The Capitol
Washington, DC 20515

Dear Majority Leader Thune, Minority Leader Schumer, Speaker Johnson, and Minority Leader Jeffries:

As corn producers and representatives of America's countryside, we write to express the increasing need for Congress to approve legislation that provides for year-round access to E15. A legislative solution for consumers to access year-round E15 comes at **no cost** yet would provide critical support to our nation's energy sector, overdue relief to American families, and necessary economic security to rural communities.

Americans need economic relief, and E15, often labeled Unleaded 88, is a readily available tool to ease financial strain for families across the nation.

Today, nearly every gallon of gasoline sold in the United States contains a 10% ethanol blend, and higher blends like E15 – fuel blended with 15% ethanol – increase savings for consumers at the pump and surge the U.S. fuel supply. **Drivers who steadily use E15 as their primary fuel source save an average of 25 cents per gallon.**¹

Covering more than 90 million acres annually, corn is America's Crop. Ethanol, created from corn, is America's Fuel. Every step of production – from planting seed to selling at the station – is completed on American soil. In addition, ethanol is crucial to advancing our nation's energy independence and security: **Ethanol adds approximately 15 billion gallons to the U.S. fuel supply each year.**²

This economic relief and energy security is felt the greatest in rural America. Farms across the nation are struggling. Not only is 2025 shaping up to be the third consecutive year of losses for corn growers, but the forecast on returns drops even further, to the lowest level since 2000.

NATIONAL OFFICE: MAIL TO: P.O. BOX 407 | CHESTERFIELD, MO 63006
632 CEPI DR. CHESTERFIELD, MO 63005 | 636-733-9004

WASHINGTON DC: 20 F STREET NW, SUITE 900, WASHINGTON, DC 20001 | 202-628-7001

Corn growers need a market-centric solution to overcome this bleak economic outlook, and year-round E15 sales would provide an opportunity to curb the weakening farm economy.

Standardizing year-round E15 will result in an increase in corn demand of about 2.3 billion bushels per year.³ Considering that about one-third of corn produced in the U.S. is used for ethanol production, this demand creation will result in an impressive improvement in profitability for operations across the nation – and rural communities will reap the benefits. Congress came closer than ever to approving a legislative fix at the end of 2024, and we are grateful to the Members of Congress who rallied behind this endeavor. We are confident that the 119th Congress can find a path forward. The undersigned corn growers of America’s Crop greatly encourage Congress to take another look at unlocking year-round E15. Thank you for your consideration.

Sincerely,
America’s Corn Growers
