

BOLSTERING THE FARM ECONOMY & SAVING DRIVERS MONEY

Ethanol has been core to the corn economy for decades. It lowers prices at the pump and strengthens our national energy security. Congress is considering legislation that would allow year-round consumer access to 15% ethanol blends (E15) — unlocking savings for drivers and new growth for corn country.

\$20.6 BILLION

Projected annual savings for American drivers from a full transition to year-round E15 sales

10–30¢ PER GALLON

Average per-gallon savings drivers see at the pump with E15 blends

2.4 BILLION BUSHELS

Potential increase in domestic corn demand for ethanol under year-round E15

128,000 JOBS

Additional jobs supported across rural America by the full adoption of year-round E15
